### **Mad Priest announces first cultural evening of 2019: An Evening in Argentina!**

For the past two years, Mad Priest has been hosting immersive cultural experiences around Chattanooga that celebrate refugees and immigrants from around the world who now call our city home. For each event, we partner with people from that country for a truly authentic experience including food, music, and more.

So far we've hosted "An Evening in..." India, Iraq, Venezuela, and Scotland, and we can't wait to share with you the countries that we are planning to celebrate in 2019! You don't wanna miss this chance to experience the world and its beautiful array of color and culture, right here in your own backyard!

Join us on Saturday, April 27th for an unforgettable evening of culture at Mad Priest: An Argentine Asado Experience & Wine Tasting, in partnership with Panoram Imports, EPB and Chattanooga School of Language! Argentine Asado is the most popular social gathering in Argentina...a celebration of seared meat and community, filled with good times and liberally doused with Malbec wine over several hours. Slow cooking over natural charcoal allow fats to cook through the meat, leaving it leaner and tastier. Mariano, a native Argentine and local wine importer, will be your asador, or grill master. We emphasize eating slowly to thoroughly enjoy this event and the asador usually saves the best cuts (the ones that take longer to roast) for later in the experience. We can't wait for you to enjoy this ancestral Argentine experience with a such carefully curated, tactfully presented menu!

Mariano and Angelina of Panoram will also be showcasing some of their incredible wines and sharing the Argentine culture with us through music, a movie, and slideshow of the glorious Argentine landscape. And for your entertainment, anyone up for some tango dancers?!
